As an aspiring Full-stack Developer, I am driven by a deep passion for coding and a commitment to building a strong foundation in both front-end and back-end development. Eager to contribute to dynamic projects and collaborate with experienced professionals, I bring a fresh perspective, a hunger for learning, and a dedication to mastering the intricacies of full-stack development.

EXPERIENCE

Frontend Developer

Lalitpur

IdeapenureNepal

May, 2023 - Present

As a Frontend Developer at IdeapenureNepal, My role is to create and implement user interfaces with HTML, CSS, and JavaScript. I work with UX/UI designers, optimise online apps for performance and scalability, and integrate APIs. In addition, I undertake code reviews, debug problems, and keep up with the latest frontend technology to improve projects.

EDUCATION

Computing

Kathmandu

Islington College

Feb, 2021 - Present

+2

Dilibazar, Kathmandu

Trinity International College

PROJECTS

My Portfolio

Developed a simple and elegant portfolio website to showcase my skills, projects, and professional experience. The site features a user-friendly interface, smooth animations, and responsive design, highlighting my expertise in web development and design.

Thing Used

- Aceternity
- Magic UI
- React-Asome-Revel

<https://portfolio-git-main-r33wazs-projects.vercel.app/>

Second Auto Gare

Final Year College Project (MERN STACK)

- React as the frontend,
- Redux as the state management,
- Node as a runtime environment,
- Express as a backend.

<https://second-auto-gare.vercel.app/>

Weather APP

- Built a weather app using HTML, CSS, and JavaScript
- Displayed current weather conditions and forecasts
- Utilized a free weather API for data retrieval
- Utilized Async functionality

<https://github.com/r33waz/weatherapp>

Simple React Form

- Implemented form validation in a React app
- Utilized React Hook Form library

- Provided real-time validation feedback

https://github.com/r33waz/Simple_form

Movie App Clone

- Began project while learning React JS
- Developed a movie clone app using React
- Fetched data from the TMDb API

Implemented features to:

- Browse and search movies
- Display movie titles, posters, and descriptions
- Ensured a responsive and user-friendly interface
- Integrated efficient error handling

https://github.com/r33waz/Movie_Clone

ideapreneur-gyan-frontend

- Developed a blog site for the company

Features include:

- Daily news updates
- Bullet points
- Weekly newsletter
- Utilized Next.js JavaScript framework for development

<https://gyan.moneymitra.com/>

Ideapreneur-ai-zone

- Served as a Frontend Developer for the blog site project
- Focused on crafting a visually appealing and user-friendly interface
- Enhanced overall user experience (UX) by understanding user needs
- Ensured adaptability across devices with responsive design principles

<https://github.com/Ideapreneurnepal/ai-zone>

TRAINING/CERTIFICATIONS

Vrit-MERN course

2023

Vrit-tecnology

I am proud to have successfully completed an intensive MERN (MongoDB, Express.js, React, Node.js) stack development course at Vrit Technologies. This comprehensive program equipped me with the essential skills and knowledge to design and implement full-stack web applications, covering every aspect of the development process

SKILLS

React, Node.js, Expre, HTML, CSS, Javascript, Next JS, Tailwind Css, MongoDB

LANGUAGE

Nepali, English
